Test environments

- local OS X install, R 4.0.0
- RStudio Cloud, R 3.6.0
- Devtools::win_check() Windows 64-bit, R 4.0.0
- Devtools::win_check() Windows 64-bit, R 3.6.3

R CMD check results

There were no errors or warnings.

For windows, there was one note about potential misspellings in the DESCRIPTION file. These were incorrectly flagged.

Downstream dependencies

I have run a R CMD check on downstream dependencies for my packages. All packages passed.
